Enter details as below

Create Form

Name: *

Request form

Identifier: *

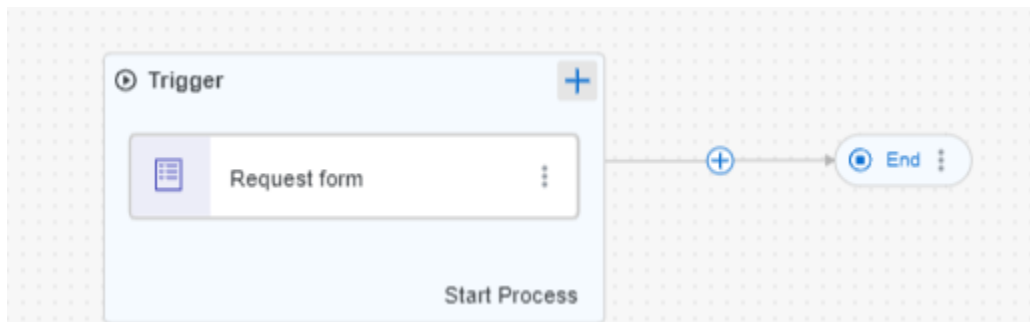

requestForm

Description:

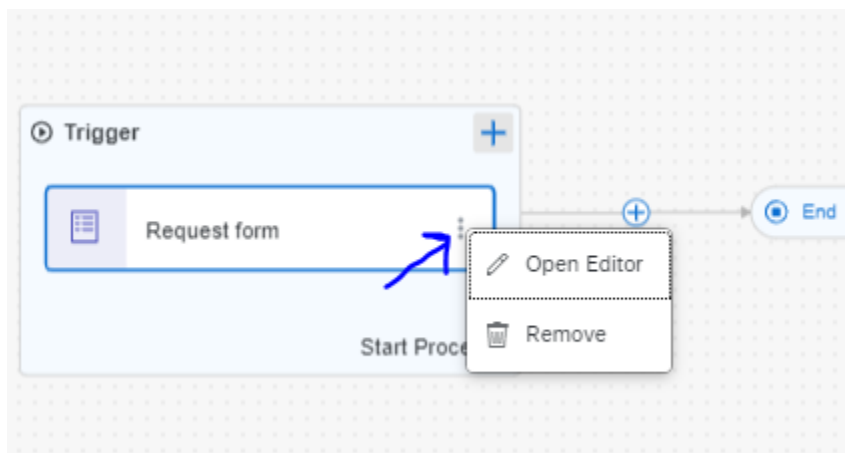

e.g. A form to start an HR task

Create Cancel

Once you click on create, form will come as below

Go to form editor and add inputs

Drag and drop fields to create the form

The screenshot shows a form builder interface. At the top, there is a navigation bar with tabs: 'Overview', '*SO Approval process', and 'Request form'. Below the navigation bar, there are two main sections. On the left is a sidebar containing a grid of field type icons and labels: 'H1' (Headline 1), 'H2' (Headline 2), 'Paragraph' (represented by a paragraph icon), 'Text' (represented by a 'T' icon), 'Text Area' (represented by a text area icon), 'Dropdown' (represented by a dropdown icon), 'Choice' (represented by a radio button icon), 'Checkbox' (represented by a checkbox icon), 'Number' (represented by a '#' icon), 'Date' (represented by a calendar icon), 'Table' (represented by a table icon), and 'Link' (represented by a link icon). On the right is the main canvas, which has a header 'Request form' and a large area with the text '+ Drag any field or click to add here'.

All the fields used below as Text type of fields.

Also make fields as mandatory as per the use case

The screenshot shows the 'Configuration' section for a field. It includes a 'Character Limit' section, a 'Configuration' section with two checkboxes: 'Required' (checked) and 'Read Only' (unchecked), and an 'Add Description' section. A blue arrow points to the 'Required' checkbox.

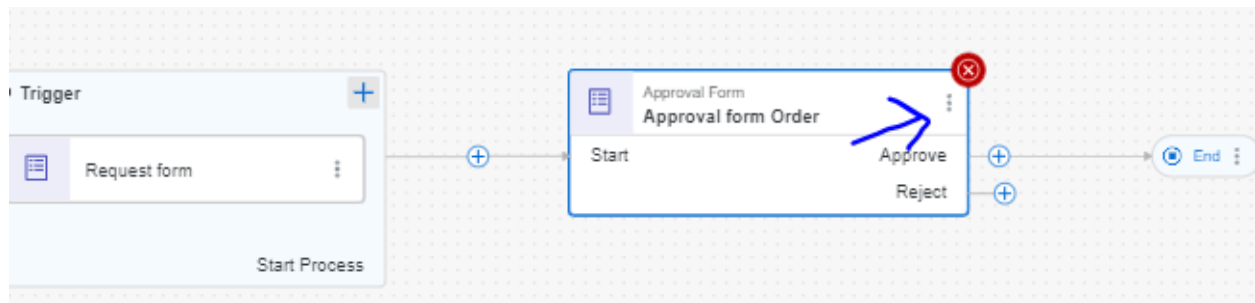

The screenshot shows a web-based form builder interface. At the top, there are tabs for 'Overview', '*SO Approval process', and '*Request form'. Below the tabs is a toolbar with navigation icons. On the left, there is a panel with various form field widgets: H1 (Headline 1), H2 (Headline 2), Paragraph, Text, Text Area, Dropdown, Choice, Checkbox, Number, Date, Table, and Link. The main workspace on the right is titled 'Request form' and contains a light blue header with the text 'Request form for Order Approval'. Below the header, there are five text input fields, each with a red asterisk indicating a required field. The fields are labeled 'Customer Name', 'Customer Email', 'Email ID', and 'Phone Number'. Each field has a placeholder text 'Enter Text' and a 'T' icon on the right. At the bottom of the workspace, there is a plus sign icon and the text 'Drag any field or click to add here'.

Then click on + node to create a new approval form which we will trigger to the My inbox user.

Select the request form to carry the fields design from the existing form.

The screenshot shows a 'Create Approval' dialog box. It has a title bar 'Create Approval'. Inside, there are three text input fields: 'Name:' with the value 'Approval form Order', 'Identifier:' with the value 'approvalFormOrder', and 'Description:' with the value 'e.g. A purchase order approval'. Below these fields, there is a checkbox labeled 'Based on a form' which is checked. To the right of the checkbox is a question mark icon. Below the checkbox is a dropdown menu with the value 'Request form'. At the bottom of the dialog, there are two buttons: 'Create' and 'Cancel'. Two blue arrows point to the 'Based on a form' checkbox and the 'Request form' dropdown menu.

Open in editor

Add new fields as per the requirement and save

The screenshot shows the 'Approval form Order' editor. On the left is a sidebar with a grid of field types: Headline 1, Headline 2, Paragraph, Text, Text Area, Dropdown, Choice, Checkbox, Number, Date, Table, and Link. The main area displays the form structure under the title 'Approval form Order'. It includes a section 'Approval for Request form' with four input fields: 'Customer Name', 'Customer Email', 'Email ID', and 'Phone Number'. Each field is labeled 'Prepopulated Field' and has a 'T' icon. Below these is a 'Comments(if any):' section with a text area labeled 'Enter Text'. A blue arrow points to the 'Enter Text' label. At the bottom, there is a prompt: '+ Drag any field or click to add here'.
